LOCAL INTELLIGENCE.

LOCAL MINING REVIEW.

The news arriving on Friday last to stop further work on the pump of the Meadow Valley mine for the present, had a very depressing effect on the community when the news was first propagated, but as soon as the extent of the news was learned a reaction took place and people generally were more hopeful that the stoppage would be of only short duration. The chloriding and finishing up of the hoisting works, continues at the Meadow Valley. At the Raymond & Ely the usual prospect work is being continued with no change to note. Sinking on the main shaft of the Pioche continues, fair progress being made. The starting of the Alps mill last Sunday and the continued running of the same daily throughout the week, was about the only

Orders having arrived to stop all work on the pump for the present, work on the pump for the present, work on that portion of the machinery of this mine caused on Friday. Machinery continued to arrive throughout the week, and as fast as it arrives it will be stored at the works until orders are received to put it up. The work on the holsting machinery will be stored ing work in the mine continues as usual. There is no change to note.
